

F.U.S.E

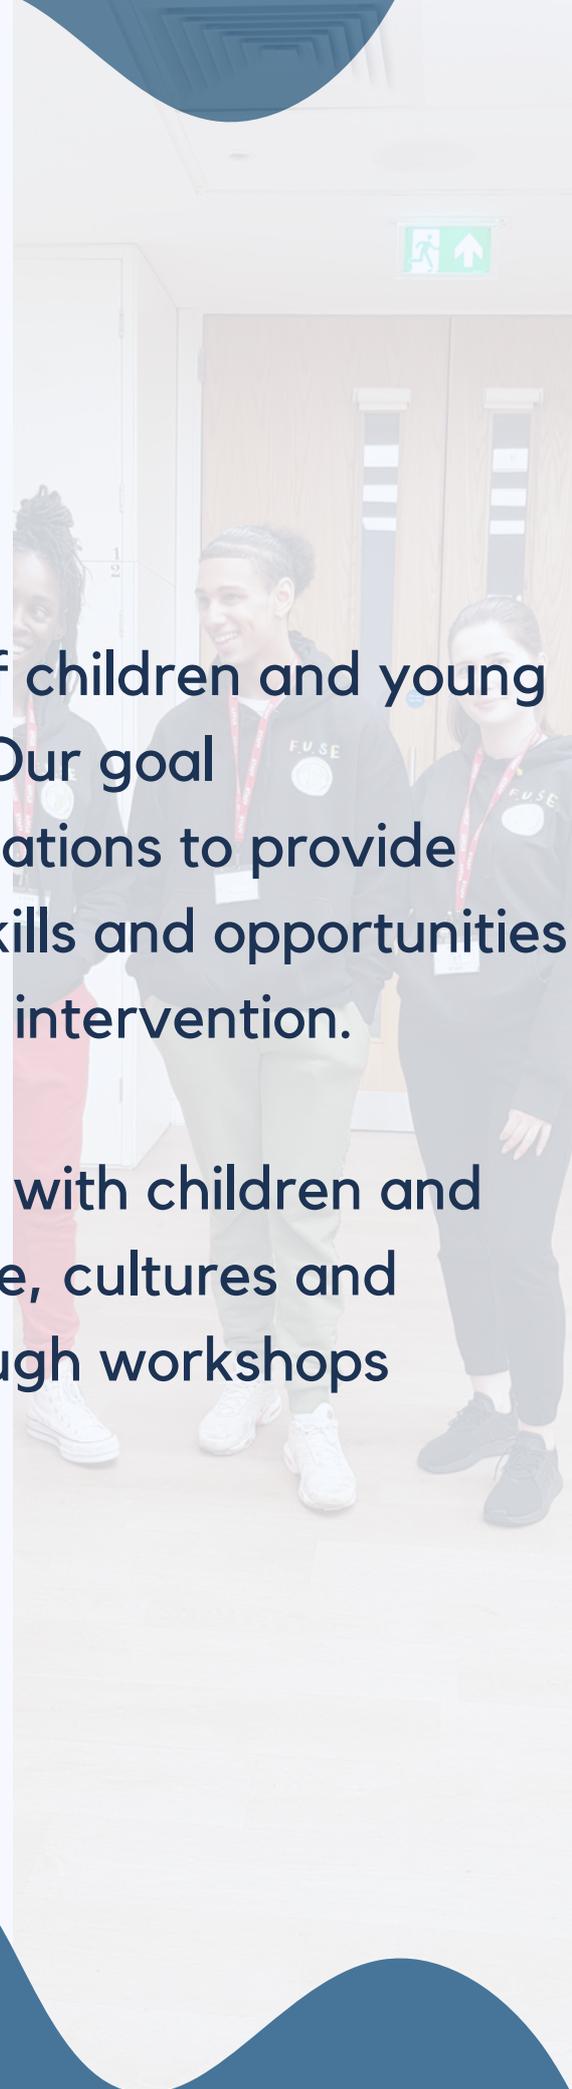

# Musical Engineer

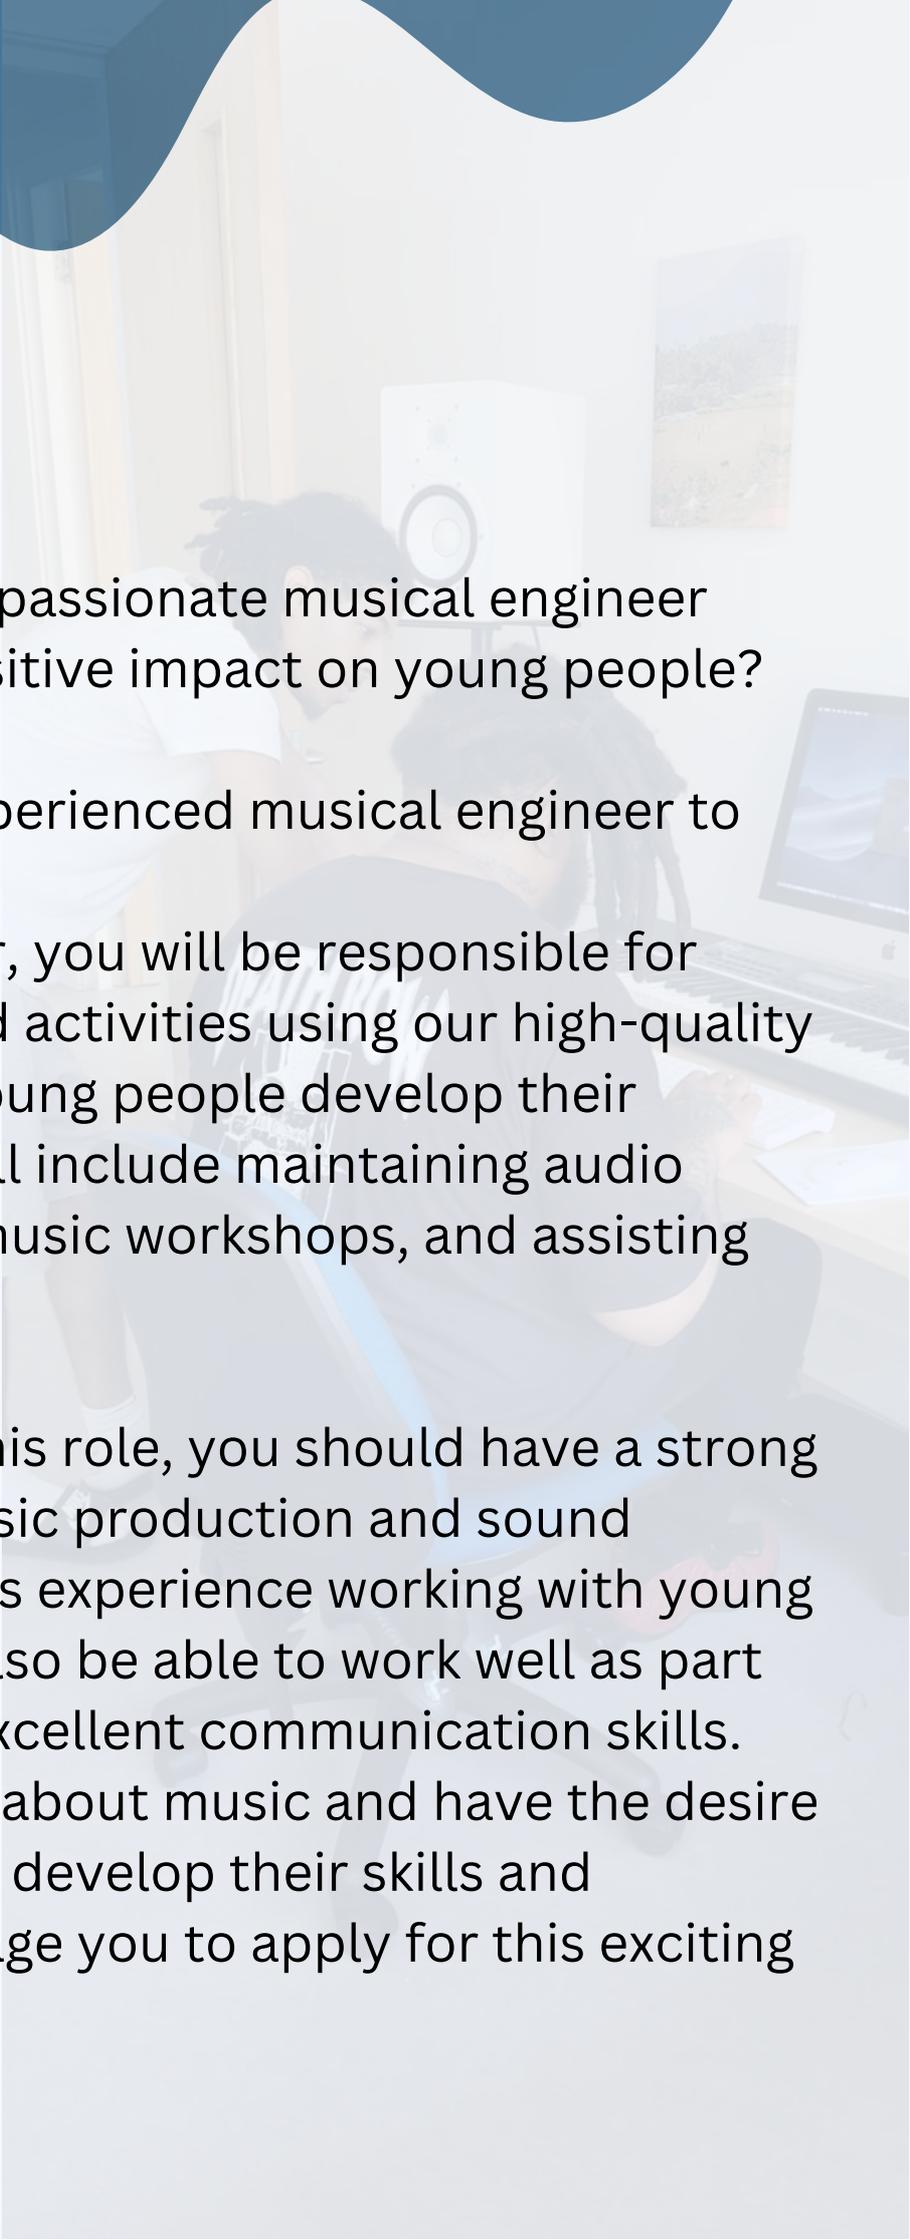

**JOIN THE TEAM**

# Who we Are

F.U.S.E exists to better the lives of children and young people living on housing estates. Our goal is to work with community organisations to provide children and young people with skills and opportunities that they may not get without our intervention.

Our team is committed to working with children and young people from all walks of life, cultures and backgrounds, inspiring them through workshops activities and off- site trips to cultivate the idea of exploring a world outside of their estate.

## Overview:

Are you a skilled and passionate musical engineer looking to make a positive impact on young people?

We are seeking an experienced musical engineer to join our team.

As a musical engineer, you will be responsible for leading music-related activities using our high-quality equipment to help young people develop their musical skills. This will include maintaining audio equipment, leading music workshops, and assisting with performances.

To be successful in this role, you should have a strong understanding of music production and sound engineering, as well as experience working with young people. You should also be able to work well as part of a team and have excellent communication skills. If you are passionate about music and have the desire to help young people develop their skills and interests, we encourage you to apply for this exciting opportunity.

**Position Type:**

Freelance

**Hours:**

3 hours per week (Term Time only)

**Salary:**

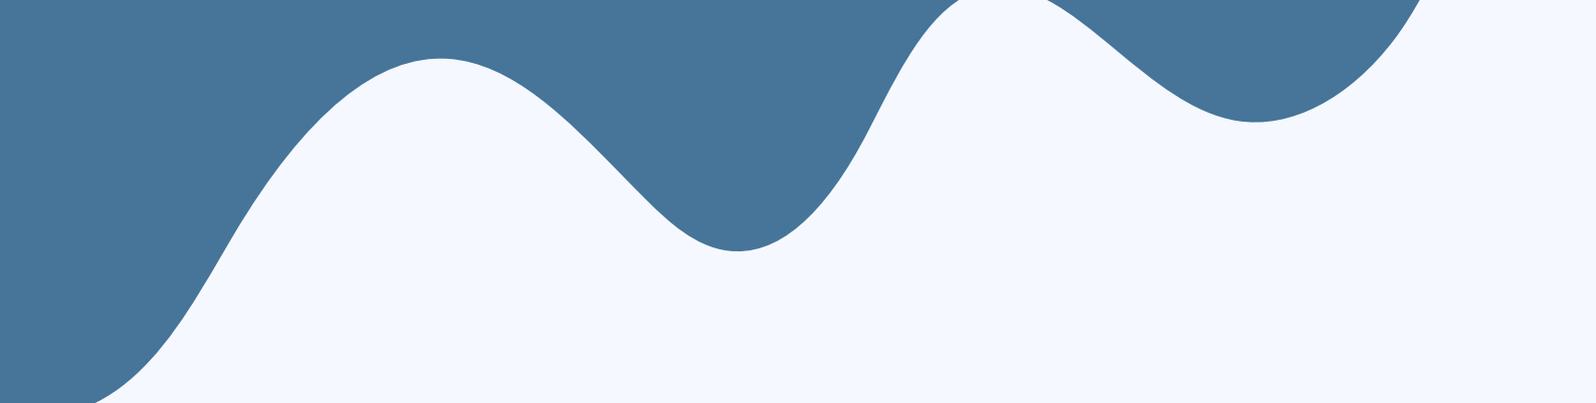

£20 p/hr

**Location:**

One Stonegrove Community Centre, Hayling Way, HA8 8BN

## Skills & Experience

- A strong understanding of music production and sound engineering, including how to set up and operate audio equipment and how to create and edit music using software such as Pro Tools or Logic Pro.
- Excellent communication skills and be able to clearly explain technical concepts to young people.
- Be able to lead music-related activities and workshops, and be able to motivate and inspire young people to get involved.
- Have a creative and innovative approach to music production, and be able to come up with new and exciting ideas for music-related activities.
- Be able to troubleshoot technical problems as they arise.
- Be able to work well as part of a team and be able to collaborate with others to ensure that music-related activities and performances run smoothly.
- Hold sole responsibility for the recording and engineering (mixing + mastering) of music / tracks during session delivery.
- Ensure that all music recorded is accessible to the respected young person and FUSE staff.

# HOW TO APPLY

Please send your CV and a cover letter (no more than 1 page of A4), outlining how your experience that meets the requirements of the role and why you want to work at FUSE to [info@fuseyouthproject.com](mailto:info@fuseyouthproject.com)

**Please make the subject line Your Name / Musical Engineer Applicant**
